Can historical names be change in year of 2023?

Persian Gulf Is Persian Gulf

Hamburg , 16.07.2023, 18:58 Time

USPA NEWS - Understanding the name "Persian Gulf" is even easy for a child because this name has been and will remain easily recognizable in historical books spanning thousands of years. However, these days, it is an era in which not only the people of Iran but the world as a whole are unhappy with a person named Putin, and the Russian government, in a strange and childish statement, has described the Persian Gulf with a fabricated term As Gulf!!!! which is quite interesting! This move by the Russian government is significant as it explicitly indicates their lack of friendship towards the people of Iran, both now and in the future.

Ayatollah Khamenei and the incompetent foreign minister of the terrorist government of the Islamic Republic are so afraid that they dare not present or condemn historical books for Russia. A childish question arises in the minds of all those who have studied history! The question is: Have the rulers of the countries around the Persian Gulf and Russia never attended school that they don't know the correct name of this important port?

Enough is Enough.

My Advise is That Please Read the Historical Books Again As Iran Previous King Pahlavi Said The Same Word

There is a significant difference between the people and the government of Iran.

The Iranian people possess a highly esteemed civilization, rich history, and a high culture. For this reason, the relationship between Iranians and the people of the sacred land of Israel, Greece, Egypt, countries with great civilizations like Italy, and many other nations has always been good. However, unfortunately, with the savage regime of Khamenei, which knows nothing but corruption, falsehood, and oppression, the Iranian people have distanced themselves from their true friends, such as Israel, the United States, and European countries. The Khamenei regime has a strange inclination towards establishing ties with the Russian government, which has never been in the interest of the people of the world.

This inclination has led to the launching of drones manufactured by the terrorist government of the Islamic Republic towards cities in the Ukrain.

Fabricated statements like the false name As Gulf instead of its correct name As Persian Gulf are used, and even the incompetent Khamenei government does not condemn it. The Iranian people are eagerly waiting to establish relations with Israel and America as their true allies.

The Iranian people need to be supported by the United States and Europe as soon as possible to distance themselves from the savage regime of Khamenei and countries that violate Iran's territorial integrity. This can only be achieved through the support of countries like Europe, America, and Israel. Otherwise, the Iranian people will continue to be oppressed by the Khamenei government.
